Enthusiastic Full-Stack Developer

Results-driven and highly skilled Full stack Developer with two years of hands-on experience in designing, implementing, and maintaining web applications. Proficient in both frontend and backend technologies, with a strong commitment to delivering high-quality, scalable solutions. Adept at collaborating with cross-functional teams and utilizing a range of programming languages and frameworks.

EXPERIENCE

SKILLS

Full Stack Web Developer

Regalar Tech Pvt. Ltd. - Pune, Maharashtra (March 2023 to Present) I Architect and implement complete web solutions, proficient in both front-end and back-end technologies. I design user interfaces, develop server-side logic, manage databases, and ensure seamless integration of various components, enabling the creation of robust and scalable web applications.

Full Stack Web Developer

Flymingo Tech (August 2022 to December 2022)

In my role, I led database design and management using MySQL and phpMyAdmin, ensuring seamless data infrastructure. I focused on meticulous architecture, optimizing for performance and scalability. Simultaneously as the Backend Team Leader, I directed a dynamic team in crafting robust solutions with CodeIgniter 4, emphasizing high performance and maintainability. My leadership fostered active collaboration and knowledge sharing within the team.

EDUCATION

Abeda Inamdar Senior College Pune, — *BCA (Science)*

I successfully completed a comprehensive Bachelor's degree in Computer Applications, equipping myself with a strong foundation in computer science and practical programming skills. The curriculum covered a range of subjects, including software development, database management, web technologies, and computer systems. Through this program, I gained valuable knowledge in [mention any specific areas or languages studied], honed my problem-solving abilities, and developed a solid understanding of industry-standard practices. The degree has not only broadened my technical expertise but also cultivated my analytical thinking and collaborative teamwork skills.

MG Collage Varangaon District Jalgaon, - *HSC*

Completed an intensive academic program with a specialization in Physics, Chemistry, and science. Acquired a profound understanding of the fundamental principles in these disciplines, demonstrating a strong aptitude for analytical thinking and problem-solving. Achieved academic excellence while actively participating in extracurricular activities, showcasing a commitment to a well-rounded educational experience.

PROJECTS

Sir Atal Bihari Vajpayee hospital management system — A Hospital Management System

– https://abvh.vanburentechnologies.com/site/userlogin

As a Full Stack Developer on the Shri Atal Bihari Vajpayee Hospital Management System project, I played a pivotal role in creating a robust and client platform to streamline hospital operations. Leveraging my expertise, I designed and implemented features for patient management, appointment scheduling, electronic health records, and administrative tasks, contributing to improved healthcare delivery and organizational agency.

Technologies Utilized:

- CodeIgniter 3
- PHP
- jQuery
- Ajax
- MySQL
- PhpMyAdmin and SQL
- Gitlab

Ram villas Resort Site— Online Resort booking site

– http://103.195.7.72/wordpress/

During my tenure as a Full Stack Developer at Regalar Tech, I spearheaded the development of Ram villas Site, an innovative online platform used for hotel bookings. Through meticulous design and implementation, I ensured seamless functionality and user-friendly interfaces, contributing to enhanced accessibility and customer satisfaction in the hotel booking market.

Technologies Utilized:

- WordPress
- Custom CSS

New India cement pipes — Website for a cement company

– https://www.nicppune.com/

As a freelance developer, I collaborated on a project to create a dynamic website for a prominent cement company. This platform served as an interactive storefront, empowering customers to browse and purchase a wide range of cement products, concrete mixes, and construction materials online. Through meticulous design and implementation, I facilitated a seamless user experience, contributing to increased sales and customer engagement for the company.

Technologies Utilized:

- HTML
- CSS
- JavaScript
- jQuery
- Bootstrap
